

Preliminary results of national research on drug abuse

Ghanem, Muhammad. Abdel-Wahhab, Mumtaz. Kamal, Musstafa

The Egyptian Journal of Psychiatry (Print)

2005 v24 n2

This research aimed to determine the real size of the drug abuse in Egypt and draw a nearly real picture to the spread of abuse and pattern of abuse in different governorates of Egypt. This was done in order to help policy makers to take suitable decisions for the prevention and management of the problem.
